

The New and Improved ABC System

If you are completely new to my approach to Pick 3 or if you are unfamiliar to my original ABC system, I suggest that you first read about my original ABC system on these two pages before you read this report:

<http://www.pick3mastery.com/abc.html>

<http://www.pick3mastery.com/AAA.html>

With this new system, there are HIGH and LOW A, B, and C digits.

A digits can be 3-2-1 OR 2-1-0 (see chart below).

Digits 3-2-1 are the **high** A digits and digits 2-1-0 are the **low** A digits.

The B digits can be 6-5-4 OR 5-4-3.

The C digits can be 9-8-7 OR 8-7-6.

A	B	C
----------	----------	----------

3	6	9
2	5	8
1	4	7

2	5	8
1	4	7
0	3	6

With this system we only use box numbers so a number like 583 becomes 3-5-8 and 931 becomes 1-3-9 and 741 becomes 1-4-7. We only pay attention to these numbers; we don't bother with numbers that don't fit this pattern like 789, 019, 569 or 356.

However, many times these NON ABC numbers give you a clue of whether a high or low **A** or **C** digit will hit. For example, after a number like 789, 889, or 799 (all high C digits), you should see LOW A digits: 012.

After low A numbers (001, 012, 011, or 200) you should see high C digits: 789.

Now let me explain this new ABC system. What you want to pay attention to when using this updated system are situations where a low, middle or high digit is on the extreme top:

3	6	9
2	5	8
1	4	7

2	5	8
1	4	7
0	3	6

Or extreme bottom:

3	6	9
2	5	8
1	4	7

2	5	8
1	4	7
0	3	6

For example, if 25**6** hits, the 6 is on the extreme bottom:

3	6	9
2	5	8
1	4	7

2	5	8
1	4	7
0	3	6

What you will find when you back test this is that the HIGHER digits for this C position (789) tends to hit next:

3	6	9
2	5	8
1	4	7

2	5	8
1	4	7
0	3	6

This means that after 256 hits you will see numbers hitting with 7, 8, or 9 being the highest digit: 12**9**, 35**8**, 14**7**, etc.

And if you see a number like **3**47 hit (3 is a high A digit):

3	6	9
2	5	8
1	4	7

2	5	8
1	4	7
0	3	6

You should expect a 0, 1 or 2 to hit in the first position soon:

3	6	9
2	5	8
1	4	7

2	5	8
1	4	7
0	3	6

So after 347 you will see these types of numbers hitting: 258, 169, 037, and 157.

At this point I suggest you do some back testing on what you have learned here so far.

I will be sending out a follow up report on this new system in the near future.
