

## The Three DTD Key Digits

You can use the key digit programs to get key digits.

(Key digits are digits with a very good chance of hitting in the next two drawings).

You can also use the Code-3 program to get three key digits.

I will now show you **another way** of getting three excellent digits using the DTD program. For this example I will use the last 10 drawings for New York starting from December 16 (963) and going back from there.

What you want to pay attention to here are the three digits on the left hand side of the reference box, which are 5, 3, and 1 in this example:

### DTD Reference Box/Playlist

10 Numbers used: **963** 228 808 446 501 691 449 492 202 602

### DTD Reference Box

**5** 9 7

**3** 6 2

**1** 8 4

8 0 0

9 4 6

Now, lets get the two key digits, which you can get using any of the key digit programs. I will use the same 10 numbers.

### Key 40 System

Numbers used: 963 228 808 446 501 691 449 492 202 602

List **14**: 127 128 129 145 156 157 158 159 245 246 247 248 249 457 458 459

And I will also get the three Code-3 key digits:

**Code-3**

10 Numbers used: 963 228 808 446 501 691 449 492 202 602

Code-**410**

018 019 028 029 036 037 038 039 046 047 048 049 056 057 058 059 067  
 068 069 078 079 089 127 128 129 136 137 138 139 145 146 147 148 149  
 156 157 158 159 167 168 169 178 179 189 245 246 247 248 249 346 347  
 348 349 457 458 459 467 468 (58)

So this is what we have:

DTD: 5-3-1

Key: **1-4**

Code: **4-1-0**

Digit 1 is the best digit since it's in all three systems.

And pair **14** looks strong.

**Guess what hit the next day on December 17?**

**313 and 419**

The number **019** hit the next day on December 18.

Use these three systems to get key digits and pay attention when they all give you the **same digit, or better yet, the same PAIR**. There is a very good chance that digit or pair will hit in the next two to four drawings.
