

FREE Access to Pick3programs.com on Sunday Oct 5

I am giving everybody free access to pick3programs.com this coming Sunday October 5 for 24 hours.

Here is the log in page:

<http://pick3programs.com/info.php?R=P3P&P=Signin>

I will be emailing out the **username** and **password** to log in sometime after midnight on Saturday night.

I would like you to focus primarily on the **Basic Box (DDB)** program which is the top program on the menu on the left.

This is, by far the **BEST** program I have created.

It generates hits consistently.

I will use Florida as an example.

Here are the last 10 hits in Florida (from most recent and going back) starting from October 1: 447 517 403 664 187 757 853 026 679 977.

See the next page for the output of the program.

489 567 569 578 579 589 678 679 689 789 (85)

What you want to pay attention to is the last part with the Playlist of 85 numbers.

These numbers are good for the next **TWO drawings**.

The program is saying here that a 7, 0, or 9 will hit in the next two drawings.

And there are exactly 85 single numbers in the Pick 3 game with these three digits.

I highly recommend you get the result of the program in the evening; the 85 numbers are good for the TWO drawings of the following day (assuming you are in a 2 draws per day state.)

If you are in a 1 draw per day state, the 85 numbers are good for the next two days.

In this particular case, the numbers that hit on October 2nd in Florida were **712** for midday and 518 for evening.

The **712** (**127** in box form) was on the list of 85 numbers:

 489 567 569 578 579 589 678 679 689 789 (85)

This happens over and over and over again with this program.

One of the three key digits this program gives you hits consistently on the next two drawings and the exact number that hits is on that list of 85 numbers!

Many times BOTH numbers that hit on the next two drawing are on the list of 85 numbers.

Prove that this is the case in your state as well by back testing this program on Sunday.

Go back a few weeks and enter 10 consecutive numbers and see the next two numbers that hit; notice that most of the time the number is on the list of 85 numbers.

Then enter the next two numbers IN FRONT of the last 10 numbers (**the program will automatically remove the 11th and 12th numbers at the end**) and again, look at the next two numbers; see if one or both of them are in the list of 85 numbers.

Keep doing this until you come to the same conclusion; this program is AMAZING!

This is the best program I have so far – but feel free to check out the other programs as well on Sunday.

The **Playlist Programs** are pretty good when there is a specific digit you like and you want a corresponding playlist.

You may also want to check out the Reference Box programs.

The brand new **Revelation 4-10** program is excellent.

The **Box Positional Control** program is great; I use it all the time. This program will give you a list of singles for any set of digits you enter for the 1st, 2nd, and 3rd positions. You may want to check it out as well.

UPDATE: I will be consolidating the Code-3 programs into just one program and I will remove the **Positional Tracking** and **US Lotteries** program since these programs depend on input from the us-lotteries website, which is no longer active.

So that's a quick rundown of my programs.

Feel free to test out all of them – but do spend most of your time back testing the **Basic Box (DDB)** program because it is the absolute best program I have.

Here is the log in page again:

Watch your email for the log in information.

I will email you the **username** and **password** to log into Pick3programs.com sometime after midnight this coming Saturday night.

You will have access to the site until midnight Sunday October 5.
