

064 Just Hit New York

There is that 0 I was waiting for.

What interesting here is that one only had to play 18 numbers to get this hit.

That's the 2-way matching list between the 36 numbers for the digit 0 and the 52 inside numbers for today.

Good for Thursday Jan 1

And actually, this means that I could play these 18 number for 4 days in a row (both midday and evening, 8 drawings) and STILL show a profit because 18 number X 8 drawings = 144 - and 5dimes pays **\$150 for a \$1 box bet.**

So there was no need to "panic."

Now that I look at it....in a way I am glad my straight numbers did not hit because I learned so much in the process.

(Now you see why I like to run my little experiments; I always learn something from them.)

NOTE: I have written a full report on this 0 digit prediction titled "**10 Lessons Learned.**" It will include additional lessons that I did not include on the small general reports I sent out. If you are a paid member you will see it on the reports section in a few days.

If you are not a member, consider joining for 30 days; this will give you access to ALL my **Members-Only** reports, which I have listed below (NOTE: I add NEW reports on a regular basis).

Members-Only Reports

Getting Started: Read This First

On this report I describe Discovery 159; the big discovery that the Basic Box program is based on. I go into the basics of how to input numbers into the program, the Digit Distribution Box, Visual Digit Distribution Box, the 6 lines, 60 Core Numbers, the 52 numbers and why you should only play singles. I also offer a brief description of my phone coaching program.

Word Tracking System: Read This Second

If you are using the Basic Box program in your state (or in any state) you have to do this to win consistently. And if you do not, you will be lost. Using this simple tracking system will give you a good handle on the game. Do this every night and after a while you will just KNOW when one of the 85 numbers will hit or not. Use this system along with the Calendar Tracking System and the signals I talk about in my other reports to totally master the Basic Box system.

The Vanilla Reload Card

Just because you see a funding method listed on the 5dimes.com “Funding Methods” page does not mean that funding method is still active. It may no longer be a valid funding method – but they have not removed it from the list. Read this short report to understand a few inside secrets about 5dimes funding methods.

The 2-Level Betting System

This report explains the 2-Level Betting System and teaches the basic Rules to be followed when using the Basic Box system.

The 39 Number System

Sometimes my students teach me. This system was pointed out to me while I was conducting a phone coaching session. I back tested it and it works. This is a simple system using the Basic 52 program that requires you to play only 39 numbers.

Outside Numbers and Rule 52

This report introduces Outside numbers and a brand new Rule: Rule 52. This Rule tells you exactly when you should only play the 52 Basic numbers. More specifically, it tells you when you should play them for the next 3 days!

Up-Down Down-Up

A number from line 1 hit New York on December 7, 2014 (504). I posted two Rules on my blog that night and one of these Rules said that the next hit will come from the bottom (lines 2-6). The number that hit on the very next drawing on December 8 came from line 6 (678), all the way on the bottom. Read this report to learn the two complementary Rules that will allow you to make the same type of prediction in your state.

Only Play 70 Numbers (Until You Get a Hit)

There are times when a shorter list of 75 or 70 numbers can easily REPLACE the 85 numbers. This shorter list is as strong and reliable as the entire list of 85 numbers. Read this report to learn this easy and SAFE way of reducing the standard list of 85 numbers down to 75 or 70 numbers.

Play Less - Win More!

UPDATE for 12-23-2014: Read this short report to learn what I am working on right now. This strategy will allow you to play less frequently – but win more often!

One Digit – 983 December 29 2014

People have been asking me for years for a system that would give them just one key digit. My answer was always, “no, I can only give you a system that gives you 2 or 3 digits, not 1.” Well, that is, until now. Using the Basic Box program, I have figured out a way to identify ONE digit with an excellent chance of hitting on the next two drawings. And most importantly, I show you how to reduce the standard list of 36 numbers down to a shorter list using the Group Matching System program. In the specific example I give in this report, I was able to reduce the list of 36 numbers down to just 21 numbers. And guess what? One of those 21 numbers hit on the very next drawing; and it had the exact digit I predicted (9). Read this report to learn all the details of this brand new system!

All these reports are available Right Now to Paid Members!

If you want to join my paid coaching program for just 30 days, email me at aa2newyork@aol.com with “\$60 special” on the subject line and I will send you a Paypal invoice for \$60. As soon as I get payment, I will email you a username and password to log into the site. **You will then have access to all my programs and all the reports I listed above.**
