*How to Use the Brand New **Pair Finding Program** to find 1, 2, or 3 Super Hot Numbers with a Good Chance of Hitting in the next 14 Days!*

I want to show you a new strategy I just discovered using the brand new **Pair Frequency Finder** program.

I entered the last 60 drawings for New York starting from the end of January. The two numbers that hit NY on Jan 31 were 419 and 678. The numbers that hit on Jan 30 were 466 and 045. I kept entering numbers until I had 60 numbers, which is the equivalent of a month (2 drawings per day x 30 days = 60 numbers). You can see the 60 numbers below after "**60 Numbers used.**"

As you can see, the top pairs are **06, 01**, which combined make up the number **061**.

The next hottest pair is 15, which can be combined with the 01 (since it has a 1) to make the number **150**.

Guess what happened?

The number **051** hit two days later on January 2. NICE!

The number **601** hit on January 12.

Pretty cool, uh?

Test this out in your state.

Go to the end of December 2014 and enter the last 60 numbers and see what the top pairs are. Combine pairs with similar digits. For example, pairs 04 and 45 make number 045 and pairs 12 and 29 make up the number 129.

Now see if any of these numbers hit in the first two weeks (14 days) of January. Do the same for the end of January and see if they hit at the start of February. Email me and let me know what happened!
