

The Super Six Multi State Strategy

How to Make Money Playing a Few Numbers on 5dimes.com

I just thought of something.

It is possible to come up with a very profitable system using the **Super Six** program in several states every day...assuming you have a 5dimes.com account.

You would first identify hot patterns and play those patterns in several states the **same** day.

One of them is bound to hit on a DAILY BASIS.

Patterns are identified using this key:

Super Six 1-2-3-4-5-6

For example, one common pattern I see is 1-4-6:

Super Six 1-2-3-4-5-6

THIS pattern just hit Florida:

Super Six

10 Numbers used: 710 472 240 253 031 379 070 752 336 846

Digit Distribution Box

0 3 7

2 4 1

5 6 8

Super Six 0-4-8-9-5-3

034 035 038 039 045 048 049 058 059 089

345 348 349 358 359 389 458 459 489 589

It also hit New York on May 21:
<http://pick3master333.com/ny-ss/>

Super Six-May 21
10 Numbers used: 228 748 702 015 493 035 643 814 270 611

Digit Distribution Box
0 1 2
4 3 7
8 5 6

Super Six **0-3-6-9-8-1**
013 016 018 **019** 036 038 039 068 069 089
136 138 139 168 169 189 368 369 389 689

190 hit on the next drawing.

Other hot patterns are **1-3-6** and **1-2-3**:

Super Six **1-2-3-4-5-6**

Super Six **1-2-3-4-5-6**

If you have access to my programs, really look into this strategy.
What makes this profitable is that you will only be playing a **few** numbers based on the patterns you like - not all 20 numbers.
