## Know What Number Will Hit Next – Ahead of Time!

Brace Yourself.

Get Ready.

You are about to witness a miracle.

In this book I will do the “impossible.”

I will give you something that you have always dreamed of having as a Pick 3 player: a list containing the next winning number! Possessing this Magical List is the private dream of every Pick 3 player. This book will introduce you to my Follower System. This Follower System is simple and straight forward.

Just look at the last number that hit your state and then look at the list of 60 followers for that number on the list. (Singles only; there are no doubles on the list of followers.) **There is an EXCELLENT chance that if a single hits, it will be on this list.** This list is good for ALL states. If you already have a workout or system you use, this list will help you focus in on the winning number on a draw to draw basis – because the winning number will usually be on this list of 60 numbers.

**So there is NO WAITING with these followers; they hit on the very NEXT drawing. In other words, these followers represent a real Draw to Draw System.** (And just to be very clear on this point: This is NOT a midday to midday or evening to evening system; is a true Draw to Draw system.)

You can use some of the lists generated by some of my other programs (**The Automatic Hot List, Super Six, DTD, Key Digits**, etc.) to find the 2-way matching numbers on the **Group Matching System** program. This 2-way list will always be **shorter than 60 numbers. Or you can just look at the numbers generated by YOUR workout and see which of them are on this list and only play those.**

**Very Important: In this book I will teach you several ways to shorten the list of 60 numbers so that you are always playing the LEAST amount of numbers possible.**

If you are one of those players who usually gets TWO out of the three digits; you NEED this list because it will “guide” you to the winning number because the winning number WILL BE ON THE LIST OF FOLLOWERS most of the time.

Let me give you a real world example right now of how accurate this system is. The number **435** hit Florida on the evening drawing on **June 25, 2015**. The 60 followers of 345 (box form of 435) are listed below in 6 lines of 10 numbers. All the followers are in this 6-line format. This list of 60 followers covers all six variations of 345. This means that this list is good for 345, 354, 435, 453, 534, and 543.
