

The Followers

I currently have available for purchase the Followers of all 220 Box Numbers in the Pick 3 Game. Each number has 60 followers (all singles, there are no doubles). This system is super easy to use. Just look at the last number that hit your state and then look at the list of 60 followers for that number on the list. **There is an EXCELLENT chance that if a single hits, it will be on this list!** This list is good for ALL states. If you already have a workout or system you use, this list will help you focus in on the winning number on a draw to draw basis – because the winning number will usually be on this list of 60 numbers. **So there is NO WAITING with these followers; they hit on the very NEXT drawing. In other words, these followers are a real Draw to Draw System.** You can use some of the lists generated by some of my other programs (**The Automatic Hot List, Super Six, etc.**) to find the 2-way matching numbers on the Group Matching System program. This 2-way list will be **shorter than 60 numbers** (I will talk more about how to shorten the list of 60 numbers on my next Kindle book). If you are one of those players who usually gets TWO out of the three digits; you NEED this list because it will “guide” you to the winning number **because the winning number WILL BE ON THE LIST most of the time.**

When you purchase this list you will get two documents.

1-The Followers list on a 27-page Word document.

This list makes it easy to copy numbers onto any program (to find matching numbers).

2-The Followers list on a 16-page Excel document. You will get the same list on a second Excel spreadsheet. This list is more compact because it has two rows of numbers on every page. This is the document you would PRINT out to have a physical copy of the list handy to reference at any time. This is the list I personally use to quickly look up any number on the list of followers.

I am offering this list at two price points.

You can get the list for **\$60**. This will give you the two documents I described above. (NOTE: There is an excellent chance that this price will GO UP in the near future once the word gets out on how super ACCURATE this list is – so I suggest you take advantage of this low price NOW.)

You can get the list for **\$99**. For this price you will get the Word and Excel documents **PLUS 3 month access to Pick3programs.com (90 days)**. I think this is an EXCELLENT deal.

If you want the \$60 offer, send me an email with “**\$60 Followers**” on the subject line. My email is aa2newyork@aol.com. I will then send you a Paypal invoice for \$60. I will send you both lists right after I get payment.

If you want the \$99 offer, send me an email with “**\$99 Followers-90 Days**” on the subject line. I will send you a Paypal invoice for \$99. I will send you both lists right after I get payment AND add 90 days to your account.

One more thing: this is a stand-alone system. You do NOT need any program or any other system to use these followers; you only need the list. You don't even need any of my programs. Once you have the list, you will always have an easy to use reference list you can go to after any number hits your state to know what numbers have the **best chance of hitting on the very next drawing!**
