

Numbers Good for the Week of September 20 to September 26

The numbers on this report are good for the next 7 days.

The numbers you should pay attention to are the highlighted numbers.

For example, the numbers for Arizona are 059, 069, 058, 068, 359, and 369.

Also look at the 3 Revelation boxes below; many times they will give you clues on what other numbers will hit as well.

An Experiment

I will be running an experiment with these numbers over the first 5 days of this week. I will assume that the numbers will be played **box** at 5dimes.com for 0.25 cents, which pays **\$37.50** for a box hit.

There are 20 one-draw state numbers here which turns out to be \$5 per day or **\$25** for the 5 days.

There are also 108 two-draw state numbers here which is \$27 per draw (108 x 0.25 cents) or \$54 per day, which is \$270 for the 5 days. So the total investment over the 5 days is **\$295** (\$25 + \$270).

All of this means one thing:

There must be at least 8 wins ($\$37.5 \times 8 = \300) to show a profit with this strategy.

\$295 Invested over 5 Days

Must Win at least 8 Times to show a profit:

$\$37.5 \times 8 = \300

Below is the breakdown of the numbers in more detail.
