

HIT REPORT

For Cheat Sheet-2

AUG 15 – AUG 31 (2015)

In the following chapters I will be looking back and reviewing the hits from **Cheat Sheet-2**. I will NOT list every hit. I will point out the “easy” obvious hits that took place. I will mostly be focusing on the hits that took place during August 15 to August 28. Insofar as the **Revelation Box** is concerned, I will mostly point out hits that came from the top of the box. Also, there are MANY hits that had one or more of the 5 pairs. I did not point these out, but if you track pairs, you can go back and find out how many of the pairs hit your state in the last 15 days. I will SHOW where the hits came from for the first 5 states only (**Explanation**). After Florida I will just show where the hit came from.

REV-20 Refers to the top 2 levels of the Revelation Box (6 digits):

REVELATION 4 BOX FOR THE LAST 60D:

0 3 9

2 4 8

1 5 6

4 8 7

A REV-20 hit here has 3 of the red digits (0 3 9 2 4 8).

So 489, 289, 209, and 089 are all REV-20 hits.

Also (this is new), $6 = 9$...so 268 and 246 would also be considered two REV-20 hits in this Revelation box.

I explain all this in more detail in **Cheat Sheet-3**.

See **Cheat Sheet-2** for a full explanation of what each line means.
