I posted 7 numbers for New York last Sunday (June 5):

085 138 237 115 267 348 447

Here is the original post: <http://alturl.com/zk8nh>

483 hit New York on Friday night June 10.

This number came from code **432**, one of the 4 hottest codes for New York – and I KNEW that this code was DUE TO HIT soon because it has not hit in a while. After I saw this hit, I immediately asked myself,

“When was the last time that code **432 hit in New York?”**

I did NOT have an answer to this question.

I then quickly looked at the **Blue Reports** for the last few weeks, looking for code 432 in New York.

I found the answer. The last time code 432 hit New York was on Tuesday April 5. That was week 29 (Book-29) and it hit in the number 469. Then it hit me:

**I SHOULD BE PUTTING THESE HOT CODES
UP ON MY CALENDAR!**

This way I can clearly SEE when they last hit.

On the next page you will see a (not too clear) picture of the wall calendar that is right in front of my desk (I got it Staples, it is for the entire year). I am showing you April, May and June 2016. First notice that I have a number in the box or day for every Sunday starting from April 3; you see the number 29 there. That corresponds to **Book-29**, which is good for the week of April 3 to April 9. These numbers go all the way to **41**, which corresponds to Week 41 and **Book-41**. NOTE: 37 is missing on the calendar, but it corresponds to Book-37: May 29 to June 4.

You can also see that I wrote 212 and 145 on the Saturday of April 9; this corresponds to the numbers 139 (from super-hot code **212**) and 604 (from hot code **145**).

I also wrote code **212** in the box for April 13 (183 hit that day). I wrote code **145** on the box for Saturday April 16 (075 hit that day).

I wrote code **145** in the box for May 3 (606 hit that day).

I wrote code **212** in the box for May 7.

I hit **381** straight that day!

I wrote code **314** in the box for May 10.

I hit **236** straight that day!

I wrote code **212** in the box for May 27.

I hit **173** straight that day!

Why Didn't I Hit 483 Straight?

The 3 hottest codes I had in May were 212, 314 and 432. However, codes got moved around when I added the level 5 codes. I ended up with 7 codes when I added the new ones and code 432 got pushed to the bottom 4 codes. Here are the 7 hottest codes I had last week, arranged from hottest to coldest (145 is the hottest).

I only played the numbers for the top 3 codes STRAIGHT (145, 212, 314). I played the numbers for the bottom 4 codes BOX THAT is why I hit 483 box.

145

212

314

255

324

432

534

Here are the numbers I had for each code last Sunday

Good for Week 38: June 5 to June 11

145 = Number 085

212 = Number 138

314 = Number 237

255 = Number 115

324 = Number 267

432 = Number 348

534 = Number 447

But I knew that code 432 was due.

I had 348 highlighted in my notes.

However, I am glad this happened.

I learned 3 valuable lessons.

- **1-Work with a small set of hot codes.**
- **2-Put them on a calendar when they hit so I can clearly SEE them. This will tell me which code has not hit in the longest time.**
- **3-The HOT code which is MOST DUE is the one most likely to hit THIS WEEK.**

That is what happened with code 432.

It was the code most due to hit.....and it hit.

The 4 Hottest Codes for New York

The hottest codes for New York right now are these 4 codes (based on the codes from week 1 to week 37).

212

314

145

432

212 is the hottest, followed by 314, 145, and 432.

Anytime any of them hits, I have to put it on my calendar. And I always have to be aware of which one has not hit in the longest time because it will most likely be the code to hit next.

How to Turn Codes into Numbers

How do I turn these 4 codes into numbers to play?

Very simple. First, write down the numbers for New York starting from the number that hit on Saturday evening (the day before the start of the week). Keep adding numbers (evening, midday, evening, midday, etc.) until you have 60 numbers.

For example, on top of the next page you will see numbers for New York starting from June 11. I will use these numbers to get the numbers to play for the following week, which is week 39 in my system, corresponding to Book-39.

585 824 483 001 061 395 652 067 770 870 111 064 162 594 946 819
041 909 911 002 211 948 608 165 392 139 370 626 528 058 173 204
606 661 765 930 841 785 931 883 148 391 971 008 961 254 546 686
673 101 534 921 810 918 298 280 181 880 253 729 461 892 029 731
236 002 000 409 073 473 256 381 552 799 706 174 926 413 985 606
454 610 355 918 911 009 263 001 684 822 679 450 170 694 242 072

Next, copy these numbers into the top input box of the R60
Decoding program:

Reference Box Programs

- > REVELATION 605
- > REVELATION 60
- > REVELATION 40
- > REVELATION 20
- > **R60 DECODING PROGRAM**
- > REVELATION 4-10
- > REVELATION 4
- > REVELATION 4X

Do not worry about entering more than 60 numbers; the program will only use the first 60 numbers you enter and delete the rest.

Then press **Run System** on the lower right hand side. The output is below. Look for the 4 lines with codes 212, 314, 145, and 432. The codes have dashes in the output, so look for:

2-1-2

3-1-4

1-4-5

4-3-2

The output is long.
See the next few pages.
