## Testimonial

Hi Mr. Anthony!

I also got hit straight 236 today in NY. That is one of the 3 hot codes you told us to play this week. I played on 5 dimes and won \$225. Thank you so much. This coding system really works. I also got one more hit this morning. The no is 002. I played it in box form. You sent us an email couple of days saying how to play doubles. A good double to play every week is the first digit in five digits in line 1. In report 34 for NY the first digit is 0. So started playing 00X since yesterday. I was playing 001, 002, 003, 004, 005, 006, 007, 008 and 009. If I had played 000 then I would have that straight 000 hit yesterday. But I never thought that NY could have that triple. Anyway I was close. I repeated all numbers again this morning and with 0.25 cent bet and I won \$75 dollars. Wow. I still can not believe it I won \$300 in one day and I spent only \$25 dollars. What a great deal!!! I must say your system really works. We need to have patience. I got more than 5 paper hits before I actually started putting money. 5 dimes is the best place to work.

Last week I got three paper hits in New York.

All of them came from the "Concentrations of Pairs" technique.

05/03 Evening Actual No is 985; using concentrations of pairs I had 589.

0507 Midday 473 got hit; using concentrations of pairs I had 347.

05/08 Evening 256 got hit; using concentrations of pairs I had 256.

It's really amazing!
