

The 10 Number System

I just came up with a new system based on 10 numbers.

Every state has a different list of 10 numbers.

I will be sending out the list for all 23 states in a few days.

You do NOT play 10 numbers with this system; you start out with a list of 10 numbers and remove one number at a time until you have 5 numbers left. A number is removed from the list when it hits.

For now, I will use the 10 numbers for New York as of today, Wednesday October 28, 2015 as an example of how to use this system.

These are the 10 numbers for New York:

The 10 Numbers for NY (Posted 10-28-2015)

067 069 125 147 236 238 269 346 357 468

This is how this system works:

Look to see where these numbers show up.

For example, the numbers 236, 238 and 269 are showing up for New York on the **Super Six** program:

Super Six (New York, Oct 28)

10 Numbers used: **970 457 345 095 722 313 316 514 654 829**

9 0 6

Hottest Digits for the Next Two Drawings: 5-2-6

Coldest/Missing: 8

Super Six 5-2-6-8-9-3

235 **236 238** 239 256 258 259 268 **269** 289

356 358 359 368 369 389 568 569 589 689

So these are three numbers you would play or consider playing for the next drawing in New York.

The Followers

The last number to hit New York as of this writing is 970, so I will take a look at the list of followers for 079 (you should consider getting the list of Followers for this system! The full list is here:

<http://pick3master333.com/the-list-000-999/>)

079 Followers

027 028 029 034 035 036 037 038 039 045
 046 047 048 049 056 057 058 059 067 068
 078 089 123 124 134 135 137 138 148 234
 235 236 237 238 239 245 246 247 248 249
 257 258 268 278 289 345 346 347 348 349
 356 357 358 359 367 368 369 378 379 389

The numbers for NY again are:

067 069 125 147 236 238 269 346 357 468

I see five of them on the list of followers for 079:

079 Followers

027 028 029 034 035 036 037 038 039 045
 046 047 048 049 056 057 058 059 **067** 068

 356 **357** 358 359 367 368 369 378 379 389

These are 5 numbers I would consider playing on the next drawing in New York (this is a draw to draw system by the way).

What other programs can I look at?

If you are VIP member, you can also take a look at the NY followers for 079:

You can also take a look at the DTD program (enter the last 10 numbers that hit your state).

I can quickly find a 2-way match between these 80 numbers and my list of 10 numbers by entering both lists (80 DTD numbers + my 10 numbers) on the **Group Matching System program. In this particular case 7 of my 10 numbers are on the list:**

Same thing with the Basic Box; get the playlist (85 numbers in this case) and enter both lists (85 numbers + 10 numbers) on the Group Matching System program to get the 2-way list (numbers on both lists).

LIST the Programs Containing the Number That Hit

Here is the most important rule of this system: when one of the 10 numbers hits, make a list of all the programs that had that number.

If it was on the **DTD** program, write it down.

If it was on the **Super Six** program, write it down.

If it was on the **Basic Box** program, write it down.

If it was on the list of **Followers** of the number that hit before, write it down.

This way you know what programs to look at for the next hit.

Good Until 5 Numbers Are Left

When a number hits, remove it from your list.

Now you will have 9 numbers to work with.

When one of them hits, remove it from the list.

Now you have 8 numbers to pay attention to.

When one of them hits, remove it.

Now you have 7 numbers left.

When you are down to 5, you will need a new list.

I will explain how to get a new list in my upcoming book, SECRETS-2.

I Will Email You the List of 10 Numbers For Your State This Week

I will be sending out the list of 10 numbers for all 23 states in the next few days.
