

There are MORE Hits (Than Those Reported)

Today is Sunday October 18, 2015 and I just sent out Book-5 to the members of the 7 Day Club and to VIP Members. In it I gave a list of the hits from Book-4:

The 5 Hits from Book-4

037, 139, 138, 159, 158

Here are the hits from the previous books:

The 8 Hits from Book-3

148, 079, 056, 159, 149, 069, 169, 069

The 7 Hits from Book-2

047, 058, 058, 139, 169, 259, 248

The 12 Hits from Book-1

238, 048, 258, 239, 178, 049, 248, 058, 068, 237, 239, 257

Only 5 hits??

That's not good.

037, 139, 138, 159, 158

Actually, it **seems** as if the system is generating LESS hits with each passing week because there were 12 hits in Book-1, 7 hits in Book-2, and 8 hits in Book-3.

I will now show you that this is NOT the case at all.

There are actually MORE hits than I am reporting.

Let me explain.

Only 3-way and 2-way Hits are Reported

In this system I am only taking into consideration the 3-way and 2-way numbers; the numbers that show up on two or three of the three LIST-8 numbers. If a hit comes from a number that is only on ONE of the lists, I do NOT count that. I also do not count hits from the bottom levels; I am only listing hits from the top two levels:

1 5 7

3 4 9

0 8 5

2 0 4

This means that if 049 hits in the Revelation Box above, I am NOT counting it as a hit because the 0 is on the third level.

1 5 7 – First Level

3 4 9 – Second Level

0 8 5 – Third Level

2 0 4 – Fourth Level

So there are SEVERAL HITS that are not listed on the “official hit count” I am doing every week. Here is a good example: California in Book-4 for the week of October 11 to October 17. I will only use the 20 draw Revelation Box in this example.

The 20 Draw Box is the Most Important Box

Before I go any further, let me just clear something up.

I used to focus primarily on the 60 draw Revelation Box - but now I think that the 20 draw box is the best one to use. Also, it is the best one to use on the day to day basis because it changes more frequently. What you will find is that the 40 and 60 draw boxes move very slowly; days can go by and they stay the same (or only one or two digits change); whereas the 20 draw box changes on a day to day basis, reflecting what is currently going on in the game. Therefore, I will be using the 20 draw Revelation Box in the example below.

Below are 6 hits from Book-4 for California that were NOT listed in the official hit count for reasons that I stated earlier; the hits were not 3-way or 2-way numbers and they included digits below the top two levels. I will only be using the 20 draw box in the examples below.

The 7 Day Master List

Conclusion: there are more hits in the books than the ones I am reporting.

Here is something I suggest you do.

- (1) Identify the digits for the 1st, 2nd, and 3rd positions on the 20 draw box.
- (2) Enter them on the **Box Positional Control** program.
- (3) This will give you the **Master List** for the week.

Using the California 20 draw box as an example:

1 5 7

3 4 9

0 8 5

2 0 4

First Position Digits: 1302

Second Position Digits: 5480

Third Position Digits: 7954

Now find the **Box Positional Control program on the menu:**

- > SUPER SIX
- > BASIC BOX
- > BASIC 52
- > DTD REFERENCE BOX
- > PAIR FREQUENCY FINDER
- > WHEELING PROGRAM
- > 120-SINGLES-ONLY
- > 210-SINGLES/DOUBLES
- > STRAIGHT POSITIONAL CONTROL
- > **BOX POSITIONAL CONTROL**
- > PAIR FREQUENCY FINDER
- > BOX-TO-STRAIGHT

Enter the digits in each position:

First Position Digits: 1302

Second Position Digits: 5480

Third Position Digits: 7954

Then click on the “Run System” bottom on the lower right hand side.

The output will look like this:
