

North Carolina Report

This Week: **059-049-089-258**

*(The following assumes that the NC codes below are correct since I did not get a chance to check them. Also, it assumes you read **Book-35** where I explain the **Code Index and Targets**).*

The 4 hottest codes in the output below are 111, 121, 141, and 212. They cover **33** weeks, which means that the target is 16 and a half or 16.5 (See **Book-35**). This means that the index has to be at least 16.5.

The index for 111 is 8 (8x1).

The index for 121, 141, and 212 is 18 (6x3).

So the index for these 4 codes is 26 (18+8); which is REALLY GOOD.

Codes for North Carolina.
