

Preview of Book-41

In **Book-41** I will address and **solve** one of the most frustrating problems you will come across when trying to identify the hottest codes for your state. What problem am I talking about?

Look at the output below.

It's clear that code 314 is the hottest code here –

BUT look at the 7-way codes: **there are 16 of them!!**

How do you narrow down this list???

Straight Group Matching System

353 Numbers used:

124 341 241 221 435 515 452 555 335 525 251 413 113 131 314 213 121 351 234 245

222 321 541 113 144 241 244 413 444 453 454 515 544

8-Way Match: 314 (1)

7-Way Match: **113 144 145 212 241 244 255 324 413 432 444 453 454 515 534 544** (16)

6-Way Match: (0)

5-Way Match: (0)

4-Way Match: 124 141 153 154 211 222 321 341 351 423 435 522 535 541 (14)

In Book-41 I will teach you how to find the hottest codes in this list of 16 codes.

Ideally you only want **3, 4, or 5 hot codes to work with.** (In some cases there will be more – but it should always **be LESS than 10.** This is for Pick 3 – You will have more in Pick 4.)

In this particular case your hottest codes will be **314** plus 2, 3, or 4 other codes from the list of 16 codes. I will show you how to identify these hot codes in Book-41.

Book-41 will be out on June 26.
