

8 STRAIGHT NUMBERS

200 and 300 Number Editions

There is a problem with the Pick 3 **8 Straight Number** program.

> **8 STRAIGHT NUMBERS**

> STRAIGHT GROUP MATCHING 300

> STRAIGHT GROUP MATCHING 100

> STRAIGHT GROUP MATCHING 60

> STRAIGHT GROUP MATCHING

> GROUP MATCHING SYSTEM 60

The problem is that the numbers end up hitting.....BOX. So in a situation like the Reference Box below, the number 069 will hit, but not straight. You will see it hit the following week as **960**, **096**, or **609**.

0 6 9

1 3 8

2 5 7

038 039 068 069 138 139 168 169

My solution?

Come up with a 200 and 300 version of the program.

This will make the numbers more “solid” and stable.

Below are the instructions I just sent my programmer for these two new programs. You should see them up on Pick3programs.com today or tomorrow.

8 Straight Numbers – 200 Number Edition

Instructions

This is the 200 number version of the 8 Straight Numbers program. Enter 200 numbers starting from the last number that hit on SATURDAY NIGHT. Keep going back until you have 200 numbers. Don't worry if you enter more than 200 numbers; the program will only use the first 200 numbers and delete the rest. This program maintains the straight format of all the numbers entered and gives a 3 level Reference Box based on the 200 numbers. Under the Reference Box you will see the 8 straight numbers based on the top TWO digits in the first, second and third positions. These 8 straight numbers are good for the next one or two weeks.

The output will look like this:

8 Straight Numbers – 300 Number Edition

Instructions

This is the 300 number version of the 8 Straight Numbers program. Enter 300 numbers starting from the last number that hit on SATURDAY NIGHT. Keep going back until you have 300 numbers. Don't worry if you enter more than 300 numbers; the program will only use the first 300 numbers and delete the rest. This program maintains the straight format of all the numbers entered and gives a 3 level Reference Box based on the 300 numbers. Under the Reference Box you will see the 8 straight numbers based on the top TWO digits in the first, second and third positions. These 8 straight numbers are good for the next one or two weeks.

The output will look like this:
