

Updating The Reports

Now that I am using a 5 level coding system, the reports will have to be updated. This means going back to the reports for your state, which I provide in the 27 Report books:

<https://pick3master333.com/27-reports/>

...and start adding the level 5 codes (codes that have a 5 in them) **starting from the first Report** which covers the week of September 20 to September 26, **2015**.

This means that the codes you have there now are correct, you just have to **ADD these NEW codes**.

The new codes will have a 5 in them.
For example:

084 = Code 14**5**

547 = Code **5**13

In the next book (Book-39), I will list the updated codes for **Report 1** for 5 states: California, Florida, New York, South Carolina, and Texas.

The reports are on the following pages.

I only included the first 3 codes.

ADD THE REST OF THE CODES.

Include ALL the codes; the regular codes and the new ones.

Read **Book-39** to see the rest of the codes.

This is an excellent way to become better at coding numbers.

Do the best you can and then look at Book-39 for “the answers.”

I will email you Book-39 on Sunday morning if you are on the **7 Day Club**. Go here to learn how to join:

<https://pick3master333.com/7-day-numbers/>

1-California Report for Sept 20 – Sept 26

California Numbers Starting from Saturday Sept 19, 2015 (Book-1)
