As you can see, I have an 80 number program and a 60 number program. Use the 80 number program for a more conservative type of play. This program will have more hits. It will give you about 50 to 60 numbers to play (the regular program gives you 70 to 80 numbers to play).

Definitely use this 80 number based program from now on if you play Texas numbers instead of the regular Daily Hits program.

It will give you about the same amount of hits by playing **less** numbers because this program is based on **the 80 hottest singles in Texas**, which are LISTED for you to see on the bottom of the program. (The regular Daily Hits program is based on 104 singles, which I listed in Book-3).

**Book-3:** <https://www.amazon.com/dp/B0774KHKQY>

I can email you the PDF of Books 1, 2, and 3 for just \$15. You will find the PDF to be easier to read and navigate than the Kindle. This also includes 30 days of Basic membership. If interested, email me with this on the subject line of your email: **\$15-Books123-30DAYS**. I will send you a Paypal invoice right away. I will send you the PDFs (and the login information) right after I get payment.

The same applies to New York: use the 80 number program from now on instead of the generic program.

This 60 number based program will give you less numbers to play (about 40 to 50 numbers) - but it will not hit as often as the 80 number version. However, **you will be IMPRESSED at just how frequently one or BOTH numbers that hit the following day are on this program.**

For example:

The numbers **470** and **510** hit New York on Friday (Now 17).  
As you can see below, the generic Daily Hits program gave a  
playlist of **71** numbers.

**(71)**

However, the brand new 60 number based program gives a much shorter playlist of just **45** numbers (these numbers are to be played at 5dimes.com by the way, as I explain in Book-3).

And here is the AMAZING thing:

The numbers **402** and **854** hit the following day (yesterday, Saturday) - **BOTH of these numbers are on the playlist!**

 459 468 469 **(45)**

Same thing for Texas.

The numbers 698 and 083 hit Texas on Friday morning.

As you can see, the generic program gives a playlist of **79** numbers (these numbers are good for the next TWO drawings by the way).

However, the 60 number program for Texas has a much smaller playlist of just 55 numbers. The number 917 hit in the evening in Texas on Friday...and it's on the playlist!

Let me say this: **you can make MONEY using these programs and playing the numbers at 5dimes.com.** You just have to track the numbers and have the bankroll (I will say \$200 to \$500). You would play the numbers BOX for 0.25 cents to start out with (email me with **SEND 70%-30% REPORT** on the subject line of your email to get a FREE report explaining a strategy you should use to **maximize** your winnings and reduce your losses when using the Daily Hits system).

I am working on a few projects right now.

One, I am working on **Book-4.**

Secondly, I am working on a document that will have a standard list of followers for all the keys for New York (I will work on Texas next). No program will be required for NY and TX if you have this **KEY MASTER REPORT** because it will have the standard playlist for all the keys; you will just have to find the Key based on the last two numbers, and I explained that in Book-3.

I am bringing this up because if you would like for me to put up a 60 number based program for your state, you will have to wait a while (maybe a few months). However, I can do it in two to three weeks for a fee. This will give you the daily reports for the last two years for your state, the list of the top 60 numbers, **and I will put up a DIGIT Playlist program based on these 60 numbers.** This program will be specifically designed to get the most hits in YOUR state only.

A Digit Playlist program works like this: you enter any digit or digits into the program and it will give you all the numbers that have those digits. So for New York, if I enter digits 289, it will give me this list of 45 numbers:

List 289: 018 024 025 027 028 029 039 058 059 089 124 125  
126 127 128 129 138 139 148 149 158 159 168 169 178 179 189  
234 236 237 245 247 248 249 258 259 267 268 269 359 369 458  
459 468 469 (45)

**This is the only type of program I will be putting up from now on because it is more flexible than the regular Daily Hits program.**

The program will show on the bottom the **Top-Down Masterlist (TDM)**, which shows all the numbers that hit in the next two drawings in your state for the last TWO YEARS with the hottest numbers up on top and the coldest numbers down on the bottom.

I will also tell you which of the 104 Master Numbers (listed in Book-3) did NOT hit in the next two drawings in your state in the last two years (**these are the coldest numbers; no need to play these numbers**).

On top of all this, I will also throw in 60 days of Gold membership.

## **KEY MASTER REPORT INCLUDED**

One more thing: I will also give you the KEY MASTER REPORT for your state. This will be a PDF document (which you can print out to have a physical copy) having the playlist for ALL the Keys. You will NOT need to use my programs to get the playlist anymore once you have this report. Just get the Key (based on the last two numbers that hit your state) and go to the page with that Key and there will be the playlist for this specific Key. This will be a list of 20 to 50 numbers good for the next two drawings in YOUR STATE. This will dramatically simplify and automate everything for you. This document is a potential goldmine for the serious Pick 3 player.

The cost for all of this...

- **Daily Reports for the last 2 years.**
- **The Digit Playlist program.**
- **TDM (Top Down Masterlist).**
- **KEY MASTER REPORT (PDF to be Printed).**
- **60 days of Gold membership.**

...is **\$120.**

If interested, email me with this on the subject line of your email: **\$120-X-KEY-MASTER-REPORT** with X being the state you want.

For example, write this if you play Florida:

**\$120-FLORIDA-KEY-MASTER-REPORT.** All the work and the Digit Playlist program and the report containing the playlist for all the keys will be completed in **2 to 3 weeks.**
