

# The KEY PLAYLIST REPORT

## (Good for ALL States)

The general Key Playlist Report good for ALL states is ready.

The maximum amount of numbers to play per key is **74**, with the average being about 73 numbers. This means that half this amount will be spent per day (\$36.50) if the numbers are played for 0.25 cents at 5dimes.com.

This means that about **\$256** is required to play these numbers **per week** in states that have two drawings per day.

$\$36.50 \times 7 \text{ days} = \$255.50$

Rounded up to the next number = \$256.

The playlists in this report have one big advantage over the playlists in the New York and Texas reports:

**These numbers hit about **60%** of the time in ALL STATES.**

This means that in 2-draw per day states (like New York: 14 drawings per week), there will be about **9** hits per week. This means that if you use this system in Texas, you should hit about **14** times per week ( $24 \times 0.60 = 14.4$ ). **This means that this general report will give you MORE hits than the Key Playlist Report for Texas!**

If these numbers are played for 0.25 cents at 5dimes.com, each hit will pay \$37.50:

$\$37.50 \times 9 \text{ Hits per Week} = \text{\$337.50 Won per Week}$

Therefore:

$\$337.50 \text{ Won Per Week} - \$256 \text{ Spent per Week} =$   
 **$\$81.50 \text{ Profit per Week}$**

If played for \$1 per number, the profit will be 4X this or **\$326** per Week, which is **\$1304** per Month.

**Overall, I think this report is actually better than the state-specific reports I came up for New York and Texas. Also, with this report there is no need for another report or list because the playlist for each key is good in ALL states.**

This report is available at two price points: \$60 or \$99.

For \$60 you will get the PDF report with all the keys and the playlist for each key. **This report is good for ALL STATES;** there is no need for another report (after seeing that the playlists in this report hit about 60% of the time, I don't see the need to come up with individual reports for specific states). Once you have this report, you will no longer need my programs to get the playlist for the keys. I suggest you print it out so you can have a physical copy.

*By the way, I will be using THIS report instead of the report I came up for New York. This means that I will be playing MORE numbers – however, I will be seeing, on average, ONE additional hit per week (the New York list gives me about 8 hits per week, but this report gives me about 9 hits per week). Also, the hits from this report are a bit more stable; that \$81.50 profit will keep coming in week after week after week...consistently.*

To get this report, email me with this on the subject line of your email: **\$60-KEY-PLAYLIST REPORT-ALL-STATES.**

I will send you a Paypal invoice right away.

I will email you the report right after I get payment.

For **\$99** I will give you the report **PLUS 3 months of Gold access.**

Email me with this on the subject line of your email if you want the report plus Gold access for 3 months:

**\$99-KEY-PLAYLIST-3-MONTHS-GOLD.**

I will send you a Paypal invoice right away.

I will email you the report right after I get payment.

I will also email you the login information to access ALL my programs (Gold, VIP, Basic) for the next 3 months. If you currently have access, I will add 3 months to your account.

If you are currently a Gold member, you can get this report for \$29. Just email me with this on the subject line of your email:  
**\$29-GOLD MEMBER-KEY-PLAYLIST-ALL-STATES.**
