TEXAS Database 2017-2016

I changed my mind about using 4 lists of 20 numbers; it will be too confusing. Also, instead of tracking one thing (the KEY), you will now be tracking four lists; so it will just complicate things.

Instead, what I will do is put up two programs for New York and Texas. One program will be based on 80 numbers (the playlist will have about 60 numbers good for the next two drawings) and one will be based on 60 numbers (the playlist will have about 40 numbers good for the next two drawings).

CONSERVATIVE PLAY
Use the 80 number program to get the most hits.
You will be playing about 60 numbers for the next two drawings (better than the regular program which gives you 70 to 80 numbers for the next two drawings).

AGGRESSIVE PLAY
Use the 60 number program for a more aggressive type of play. This program will hit slightly less frequently than the 80 number program but you will be playing less numbers (about 40 numbers), which means you will be making more money when you hit (I recommend playing these numbers at 5dimes.com).

These 4 NEW programs will be up on the Gold section of my site this week! Here is how the Gold menu will look like in 1 to 3 days:

TEXAS Game Mastery

What if you used the Daily Hits system in Texas for all of 2016 and 2017 and you recorded all the numbers that hit in the next two drawings in a single document?

And what if you put all those numbers (1023 numbers to be exact) into the **Group Matching System** program to find out what are the hottest numbers IN ORDER OF IMPORTANCE?

THAT is exactly what I have done. (I call this record the **Database.** I will discuss it in more detail in Book-4).

This means that I now know what are the hottest numbers in Texas for the next two drawings based on this system. I just sent Gold members a VERY IMPORTANT list. This list shows ALL the numbers that hit Texas in the next two drawings based on this system for all of 2016 and from January to November of this year.

I am calling this the TDM: **Top Down Masterlist.**

And just to show you what a TDM looks like, below is just the TOP of the TDM for Texas. In other words, the three hottest numbers in the Texas game are 156, 359, and 234 (you have to be a Gold member to get the full list).

24-Way Match: 156 (1)
22-Way Match: 359 (1)
21-Way Match: 234 (1)

What does this mean?

24-Way Match: 156 (1)
22-Way Match: 359 (1)
21-Way Match: 234 (1)

It means that if the KEY for the next two drawings in Texas has a 1, 5, or 6 (125, 258, 236, etc.), you should definitely play the number 156 for the next two drawings because 156 is the HOTTEST number in the Texas game.

If the key has a 3, 5, or 9, definitely play the number 359.

If the key has a 2, 3, or 4, play the number 234

I explain how to get the key in Book-3:

The TEXAS Database for 2017 and 2016

You can use the database of a state to find the hottest numbers in that state in order of importance (hottest number up on top and the coldest number down on the bottom). This is the TDM.

You can also use this database to identify a Specialized Playlist for any KEY.

For example, I have a list of 49 numbers for New York for key 149.

This means that if the last two numbers that hit New York give me key 149, I don't need to use the program to get my playlist; I will always use my Specialized Playlist of 49 numbers for Key 149. I came up with this special list using the database for New York. The great thing about a Specialized Playlist is that (1) it is specifically designed to HIT for a specific key and (2) it tends to be short (20 to 50 numbers).

You can get the Specialized Playlist for ANY key in TEXAS - if you have the database for Texas (by the way, a good database has the Daily Hit Reports of ideally TWO years).

If you have a **5dimes account** and the right **bankroll** and the **database** (to come up with a special playlist for specific keys), you can make a small fortune.

I am bringing this up because I am selling both the TDM (Top-Down Masterlist) and the two year database for Texas as a product.
The TDM and database are a GOLD MINE if you play the Texas numbers. This is basically a record of all the keys and hits for Texas for TWO years. All the hits are highlighted in red so they are easy to see.

For example, the report looks like this from November 7 and November 6, 2017 (the reports are shown with the most recent date first):

Imagine having all the reports for Texas for TWO years?

SECRET REVEALED

How to get the Specialized Playlist for any key should be obvious: just do a search (**Control-F** on most versions of Microsoft Word) to find the key you are interested in the database.

For example, if the key for the next two drawings in Texas is 129, you would **do a search for "List 129"** and each time you press NEXT, Word will take you to the previous time that List 129 showed up. Now, look at what number hit. Write it down. Go to the previous time key 129 hit. Write it down. Keep going until you have written ALL the followers (the numbers that hit after) of key 129. Enter this list of numbers you wrote down into the **Group Matching System** to organize your list.

THIS is how you come up with a special playlist for ANY key (129, 149, 156, 258, 356, etc.).

After a while (after you have come up with the playlist for all or most of the keys), you will not need to use any program to get a playlist because **you will have a list that you will play automatically for specific keys.**

(I am sure that there are other patterns and secrets in the database that I am not aware off yet. I will teach these new patterns and secrets as soon as I learn them in Follow up Reports. However, if you have the Texas Database, you may find these hidden patterns before I do).

I already have the reports for Texas for the last two years - and it's available for sale. **With this list you can pretty much DOMINATE the Pick 3 game in Texas.**

You can get the Texas Database for **$99.**

If you are interested in this gold mine of data for the Pick 3 game in Texas, email me with this on the subject line of your email: **$99-TEXAS-MASTER.**

I will send you a Paypal invoice right away.

If you order today, you will get the list in a day or two.

My email is aanewyork4000@gmail.com

REQUEST ANY STATE for $99.

Creating these reports is time consuming, so I am charging $99 for these reports.

You can request any state for **$99.**

Email me with this on the subject line of your email: **$99-STATE-2017-2016.**

For example, if you want Florida, write: **$99-FLORIDA-2017-2016.**

I will send you a Paypal invoice right away.
I will start working on your list after I get payment.
You should get the list within a week.

The beauty of this database is that you will be able to come up with a special list of numbers to play for ANY key - thereby you will no longer be dependent on any program or outside system after you get the database for your state.

Also, after studying the daily reports for a while, you will be able to find patterns and relationships that tell you ahead of time what numbers are most likely to hit in the next two drawings after specific keys.

This database is truly a gold mine for the Pick 3 enthusiast!

Lower Price: You can come up with the database yourself if you have access to my Gold programs (and the time, obviously). You will use the same program I am using to come up with the reports: the **Pick 3 Daily Hits** program.

I will email you a Paypal invoice right after I get your email.
I will email you a username and password to use the Gold programs right after I get payment.
You will have access for two months.

LATE ENTRY: 175 Just Hit New York

If you are on my email list, you should have the list of 49 numbers for key 149 for NEW YORK that I referred to because I sent it out about a week ago. Here is the list for those of you who do not have it:

LIST 149: 012 016 018 019 029 039 045 046 047 048 049 059 069 079 125 126 127 135 136 137 138 139 145 147 148 156 157 158 167 168 169 189 234 239 245 246 247 248 249 269 346 349 359 369 379 456 458 459 467 (49)

It is now 12:58PM on Wednesday November 15 and the numbers **020** and **502** hit New York yesterday. If you read Book-3, you know that the key from these two numbers is 149. This means that if you play NY numbers, you would make sure that whatever numbers you play in NY today should have a 1, 4, or 9. **This also means that I would only play numbers from this special list of 49 numbers today in New York.**

The number 175 just hit New York like 30 minutes ago.

And YES....157 is on my special list for key 149 !!

LIST 149: 012 016 018 019 029 039 045 046 047 048 049 059 069 079 125 126 127 135 136 137 138 139 145 147 148 156 157 158 167 168 169 189 234 239 245 246 247 248 249 269 346 349 359 369 379 456 458 459 467 (49)
