

How to Track the Numbers

In previous posts I said that you can “track the numbers” to find the most due line. But what does that mean exactly? I will explain what that means right now. I will use **New Jersey** numbers in my explanation. I will start from December 1.

<https://www.lotterypost.com/results/NJ/calendar/pick3/2017>

Technically, you can do this manually if you read **Book-3** and if you have my **Key Playlist Report**; it has the top 80 keys and their playlist – go to the two pages below for details on how to get it:

<https://pick3master333.com/2017/12/04/60-super-special/>

<https://pick3master333.com/2017/12/03/the-standard-playlist-and-the-new-tracking-system/>

However, it helps if you have access to my **Pick 3 Daily Hits** program (you have to be a Gold member to use it). I will start from December 1. This will be on the **BOTTOM** of my tracking report. You can see it on page 4 below. **Add the following reports on top of it. As you can see, the hit came from line 6 on December 1 and 2 (BOTTOM). This tells me that a hit will soon be coming from the TOP soon: line 1, line 2, or line 3.** There were no hits on Dec 3 and 4. There were two hits on Dec 5 and they came from lines 1 and 4 (as expected: however notice the gap on lines 2 and 3). I am writing this on December 6 and I have lines 2 and 3 highlighted because there is a good chance that a hit will come from one of these two lines tomorrow or the day after. I can make this type of prediction (and so can you) just by recording the **KEY**, **PLAYLIST**, and the **LINES** that hit **every day**. That is what I mean by “tracking the numbers”: **recording these three things every day for your state.**

There is an excellent chance that one or two of the numbers on the playlist will hit in the next two drawings.

-The 20 Straight Number System. This is a pen and paper system you can use (no program required) to find the 20 most due straight numbers in your state. One of these 20 numbers will hit straight in your state in the next 1 to 3 weeks.
