First, I have identified the 10 “problem keys” that give you a very large playlist. For example, if the last two numbers that hit your state are 459 and 866, you will know (if you read **Book-3**:

<https://www.amazon.com/dp/B0774KHKQY>) that the key is 123. There is a problem with this key: the playlist is way too big. It has 82 numbers:

Pick 3 Daily Hits

Good for the Next Two Drawings

Numbers used: 459 866

List 123: 012 014 015 016 017 018 019 024 025 026 027 028 029 034  
035 036 037 038 039 124 125 126 127 128 129 134 135 136 137 138  
139 145 146 147 148 149 156 157 158 159 167 168 169 178 179 189  
234 235 236 237 238 239 245 246 247 248 249 256 257 258 259 267  
268 269 278 279 289 345 346 347 348 349 356 357 358 359 367 368  
369 378 379 389 **(82)**

Another problem key is 134.  
It has a playlist of 79 numbers:

Pick 3 Daily Hits  
Good for the Next Two Drawings  
Numbers used: 258 966

List 134: 012 014 015 016 017 018 019 024 034 035 036 037 038 039  
045 046 047 048 049 124 125 126 127 128 129 134 135 136 137 138  
139 145 146 147 148 149 156 157 158 159 167 168 169 178 179 189  
234 235 236 237 238 239 245 246 247 248 249 345 346 347 348 349  
356 357 358 359 367 368 369 378 379 389 456 457 458 459 467 468  
469 **(79)**

I have updated the Daily Hits program so that now **it will give you a maximum of 74 numbers.** Some keys will have LESS numbers – but no key will have more than 74 numbers. That's the first improvement; a maximum of 74 numbers for every key.

The second improvement is that the playlist will be shown in lines of 10 numbers. This will make it possible to track the numbers.

For example, when you enter any set of numbers that give you keys 123 (like 495 and 866), the output will look like this:

Pick 3 Daily Hits  
 Good for the Next Two Drawings  
 Numbers used: 495 866

**Playlist for Key 123:**

017 018 019 024 025 026 027 028 029 034  
 035 036 037 038 039 124 125 126 127 128  
 129 134 135 136 137 138 139 145 146 147  
 148 149 156 157 158 159 167 168 169 178  
 179 189 234 235 236 237 238 239 245 246  
 247 248 249 256 257 258 259 267 268 269  
 278 279 289 345 346 347 348 349 356 357  
 358 359 367 368 **(74)**

**This is what I mean by “lines”:**

017 018 019 024 025 026 027 028 029 034 = Line 1  
 035 036 037 038 039 124 125 126 127 128 = Line 2  
 129 134 135 136 137 138 139 145 146 147 = Line 3  
 148 149 156 157 158 159 167 168 169 178 = Line 4  
 179 189 234 235 236 237 238 239 245 246 = Line 5  
 247 248 249 256 257 258 259 267 268 269 = Line 6  
 278 279 289 345 346 347 348 349 356 357 = Line 7  
 358 359 367 368 **(74)** = Line 8

For example, if the last three hits came from lines 6, 7, and 8, there is a good chance that the next hit will come from the top lines (1, 2, 3, 4). This reduces the playlist down to just 40 numbers. Same thing if the last two or three hits came from the top (lines 1, 2, 3). This means that the next hit will most likely come from the bottom (lines 6, 7, 8).

Below are the instructions that come with this updated version of the program. I give away here the 10 “problem keys” I mentioned earlier.

Enter the last two Pick 3 numbers that hit your state. This program will give you a two or three digit KEY and the corresponding playlist for that key. All the numbers are singles. The numbers are good for the next two drawings. The maximum amount of numbers in each playlist is 74 numbers. The playlist in this program is the same one you will see in the **DIGIT PLAYLIST 104** program – however, it will give you a shorter playlist of 74 numbers for these keys (which have more than 74 numbers): **123, 124, 125, 126, 134, 135, 136, 234, 235, 236**. The numbers in the playlist are deliberately shown in lines of 10 numbers. This will make it possible to track the numbers. For example, if the last three hits came from lines 6, 7, and 8, there is a good chance that the next hit will come from the top lines (1, 2, 3, 4). This reduces the playlist down to just 40 numbers. Same thing if the last two or three hits came from the top (lines 1, 2, 3). This means that the next hit will most likely come from the bottom (lines 6, 7, 8).

And there is more!

I recently made an offer to Gold members. The offer was this: for \$29 I will give you the top keys and the corresponding playlist for those keys. I call this the **Key Playlist Report** and it is good for ALL states.

Here is a question for you: what if I listed the top Keys (there are 80 of them) and gave you a program where you can enter any of those keys to get the playlist? Would that be useful??

I think the answer is YES.

That is why, if you are a Gold member, you will soon be seeing a brand new program on the menu. I call it the **Key Playlist Report**. Enter any of the keys (listed on the bottom of the program) and you will get the STANDARD playlist for that key. You can also enter individual digits or two digits. This playlist is good for ALL states.

NOTE: If you recently purchased the **Key Playlist Report** from me, I will soon be sending you an updated version of the report where the playlist is shown in lines of 10 numbers each.

Below are the instructions that will come with the Key Playlist Report program.

Enter one, two, or three digits and this program will give you the corresponding playlist for those digits. This program will only accept three digits or less; it will not work if more than three digits are entered. This program will make it possible for you to get the **standard playlist** for any digit or key. This program is similar to the **Digit Playlist 104** program, with one big exception; it will give you a shorter playlist of 74 numbers for these keys: 123, 124, 125, 126, 134, 135, 136, 234, 235, 236. The numbers in the playlist are shown in lines of 10 numbers each. This will make it possible to track the numbers. For example, if the last three hits came from lines 6, 7, and 8, there is a good chance that the next hit will come from the top lines (1, 2, 3, 4). This reduces the playlist down to just 40 numbers. Same thing if the last two or three hits came from the top (lines 1, 2, 3). This means that the next hit will most likely come from the bottom (lines 6, 7, 8).

You will be able to see the update to the Daily Hits program and the brand new Key Playlist program up on the Gold section in a few days!
