10 Straight Numbers for New York

It is now Wednesday January 24, 2018 and yesterday I sent out a report explaining the absolute BEST system I have ever come up with in my 25+ years of studying the Pick 3 game.

I sent out a report explaining a system based on 10 straight numbers and the time line that those numbers are to be played in. There were 3 additional reports sent:

The 100 Groups-1000 Numbers: This is an Excel sheet. The workout to get the 10 straight numbers is done on this sheet (this is a Pen and Paper system; no program is required).

The 100 Groups: This PDF has all 100 groups of 10 numbers that will be played. You will always be playing one of these groups when using this system.

The Playing Cycle Chart: This PDF has a chart showing how much you will have invested and won if you hit during the playing cycle used in this system. Refer to this chart to know how much you have won on any given day. For example, if one of the 10 straight numbers hits on day 21 (and you are in a 2-draw per day state), your net profit will be **$120** (the 10 numbers are initially to be played at 5dimes.com for 0.25 cent straight. The payout is $225. Slowly, you will increase your bet as you gain more experience. At the $1 per number level, the payout will be **$900** per straight hit).

In the report I explain the process to be followed to slowly (but surely) progress from winning $225 per hit, then to $900, $1800 and eventually **$2700** when you get a straight hit.

This is a solid system that you can depend on for the LONG TERM.
You can expect some quick $225 hits in the beginning; the bigger wins will come later.

Here is the best part of all this:
I did NOT charge anything for this report.

It was a FREE report.

However, there was one requirement: I only sent it out to current or former members of my programs. This means that only Basic, VIP, or Gold members got this report.

I explain my membership levels here:
https://pick3master333.com/60-special/

I explain the process here:
https://pick3master333.com/2018/01/23/10-straight-number-system-sent-4-documents/

SPECIAL LOW PRICE ($20): The easiest (and cheapest) way to become a member is to pay for my 3 Month Special (Basic programs only):
https://pick3master333.com/2018/01/19/get-3-month-access-to-my-programs-for-just-20/

Now that you understand the basic requirement to get the report, I will share with you an exciting new development. You get the 10 straight numbers this system is based on using a simple pen and paper workout. However, I mentioned in the report I sent out that I will be putting up a program on the Gold section of my site that does the workout for you since I personally need this program because the workout takes a while (maybe 30 to 60 minutes) – so if I was to post the numbers for several states, it will take me several **hours** to get the numbers using my pen and paper workout. Well, I have Good News! The program is up! (You have to be a Gold member to access this program).

To use this program you will have to record your numbers on a Word (or WordPad) document like you see below. Below are the numbers for New York starting from January 23, 2018 (**296 924**) going all the way back to March 1, 2017. I got the numbers from these two pages:

https://www.lotterypost.com/results/ny/calendar/numbers/2018
https://www.lotterypost.com/results/ny/calendar/numbers/2017

Start by writing the most recent number that hit your state and work your way back. You will need **600** numbers to use the program. No need to count numbers. Just copy and paste a large list into the program and the program will automatically use the first 600 numbers on the list (you will get an error message if you copied less than 600 numbers). For example, there are 658 numbers below. The program used the first 600 numbers and deleted the last 58 numbers on the list.

Just to be clear: **You should NOT be entering these numbers one by one into the program.** What you should do is write the numbers like you see above on a Word document and then **COPY the list** – then **PASTE the list** into the top input box of the program. Then click on Run System on the lower right hand corner. If you don't know how to copy and paste, watch some of the YouTube videos below for an explanation.

<mark>TIP:</mark> You can quickly go from one year to the next by changing the year at the end. For example, you can see the numbers for New York for 2018 here:
https://www.lotterypost.com/results/ny/calendar/numbers/**2018**

Go to the top of the page and change the end to 2017; this will bring you to last years numbers:
https://www.lotterypost.com/results/ny/calendar/numbers/**2017**

For example, here is the calendar page for Texas.
https://www.lotterypost.com/results/tx/calendar/pick3

Click on 2018 to go to this year's numbers.

It will bring you here:
https://www.lotterypost.com/results/tx/calendar/pick3/**2018**

When you change the year to 2017, it will bring you here:
https://www.lotterypost.com/results/tx/calendar/pick3/**2017**

You can see the output from the program (using the last 600 numbers for New York) on the next page.

The 10 Most Due Straight Numbers

425 475
426 476
427 477
428 478
429 479

99 Groups removed at point 379

These are the 10 straight numbers to be played in New York in the manner I explained in the **10 Straight Number System** report I sent out yesterday (January 23, 2018).

425 475
426 476
427 477
428 478
429 479

There are exactly 100 of these 10-number groups.
Every number is straight.
100 X 10 = 1000 Straight Numbers in the Pick 3 Game.
If you have access to my Gold programs, you can see all 100 groups here:

The 100 Groups PDF I sent along with the explanation of this system has the same list of 100 groups. And to repeat what I said before, you will **always** be playing one of these groups when using this system. Each group has exactly 10 straight numbers.

Notice the line on the bottom:

99 Groups removed at point 379

This means that the program was able to remove 99 of the 100 groups on the 379th number from the front.

<mark>EXPLANATION</mark>
Each group is named or numbered based on the first number in the Group. For example, the Group below is Group 020 because the first number in the Group is 020.

Group 020
020 070
021 071
022 072
023 073
024 074

The way the program works is that is removes a Group if any number from that Group hits. For example, if the numbers 028, 081, and 399 are in the list of 600 numbers entered, the program will remove Groups **025, 030**, and **399** because these numbers are in these Groups.
The program will keep doing this until there is ONE Group left. THAT is the Group that you will be playing.

Group 025
025 075
026 076
027 077
028 078
029 079

Group 030
030 080
031 **081**
032 082
033 083
034 084

Group 345
345 395
346 396
347 397
348 398
349 **399**

Therefore, in this particular case the program only needed the first 379 numbers on the list of numbers entered to remove 99 of the 100 Groups. The last remaining group was Group 425.

Group 425
425 475
426 476
427 477
428 478
429 479

One of these 10 numbers should be hitting New York soon because this Group is due to hit. I explain this in more detail in the **10 Straight Number System Report** I sent out yesterday.

I will be putting a Kindle up on Amazon soon with 10 straight number predictions for several states: Texas, North Carolina, South Carolina, Florida, Ohio, Georgia, Missouri, etc.

However, if you have the report I sent out yesterday (or access to the Gold program I just explained) you can get the 10 straight numbers for these states on your own right away.

If you would like to access this program (along with all the other Gold programs), you can do so for $60. I am running a Special now: Get 2 months of Gold membership for $60. If interested, email me with this on the subject line of your email: **$60-GOLD-2 MONTHS.**
My email is aanewyork4000@gmail.com

If you cannot afford that, you can get 3 months of Basic membership for **$20** (this does NOT include access to the **10 Straight Number** program I just explained).

(If you are currently a Basic or VIP member and you want to upgrade to Gold membership for a LOW price, email me with this on the subject line of your email: **I WANT TO UPGRADE TO GOLD**)

After you pay for either of these Specials ($60 for Gold or $20 for Basic), email me with this on the subject line of your email and I will email you the 4 documents that explain my 10 Straight Number System right away:
