I am happy now because I got my money back (I got two hits so far this week; 490 yesterday and 609 today; both box hits); another hit will be pure profit. I say that because I am playing 19 numbers here (one of the digits repeats in my pairs 40, 60; so one number repeats; 604). Here are the 19 numbers I am playing this week (I removed 604):

400 401 402 403 404 405 406 407 408 **409**

600 601 602 603 605 606 607 608 **609**

I am playing these for 0.25 cents box at 5dimes.com, so each drawing costs me \$4.75 (19 X 0.25). The cost for the entire week is \$4.75 X 14 or **\$66.50**.

Each hit pays \$37.50 and I hit twice so far, so I won 75, so I increased my bankroll by \$8.50 ($\$75 - \66.50) – not a lot, but money is money. Everything is good if **my bankroll keeps going UP every week** (and it has been in the last two weeks!). I will be putting 0.50 cents on the numbers once my bankroll is around \$400. I say that because it will cost me \$133 per week to play the numbers for 0.50 cents ($19 \times 0.50 \times 14$) and \$133 **X3** is \$399.

Make Money With Me: You can make money with me; just copy what I am doing. I am doing all the hard work coming up with the pairs; all you have to do is play them because I am giving them out for FREE on Sunday! You will need **\$66.50** per week; so the minimum you will need to have in your 5dimes account is 3X this or **\$200**. You can play ANY state from 5dimes.com.

FREE 5dimes Reports: If you know nothing about 5dimes.com, email me with this on the subject line of your email and I will email you 3 FREE reports that explain how 5dimes works and the traps to avoid: **Send all 5dimes Reports**. You can email me at aanewyork4000@gmail.com

How I Play My Numbers: I spend the entire \$66.50 on Sunday morning because I play 19 numbers for the entire week in one shot. I call this **Blanket Betting**.

I would have missed several hits if I would have not done this because the same pair will repeat later in the week and I may decide not to play it again if I am playing draw to draw (“this pair hit already; I don’t have to play it again”). So; if you are going to copy me, you will have to do this as well; **play all 19 numbers for the entire week at 5dimes.com on Sunday morning. You will spend all \$66.50 in one shot** – but the good news is that you are done for the week; you will not have to worry about playing your numbers for the coming week (you play the numbers ONE time early on Sunday morning and you play them for 7 days: Sunday to Saturday).

Something to keep in mind is that there will be misses on certain weeks (weeks with no hits) but this system makes up for it; you may see 3 or 4 hits the following week!

And keep in mind that you can take my training program to learn how to do this yourself. You can learn more about it here: <https://pick3master333.com/best-system/>

Finally; **this is a COMPLEX system.** It is difficult to learn. If you decide to take my program, you will have to PUSH through the complexity and persist until you reach the end (the “end” is Lesson 23: there are currently 23 lessons in the program). Feel free to email me if you have any questions.
