

The NEW Leader System

Part-2

A **Leader** is a dominant number.

The basic idea behind this Leader System is the fact that hot numbers usually will not hit – but a number very close to it will hit. For example, 238 is hot, but what ends up hitting is 138, 239, 248, or 258. I call these numbers **Followers** of the Leader (or the dominant) number: 238.

Therefore, there are more than one way to arrive at a **Leader** (or a Hot Number or a dominant number). I explained two ways in the previous report. Here is another way; enter the last 40 numbers that hit your state into any of the **Revelation** programs in red below.

Reference Box Programs

- > REVELATION 605
- > PLUS 1/MINUS 1
- > PLUS 2/MINUS 2
- > REVELATION 60
- > **REVELATION 40**
- > REVELATION 20
- > R60 DECODING PROGRAM
- > **REVELATION 5**
- > **REVELATION 4-10**
- > **REVELATION 4**
- > REVELATION 4X
- > REFERENCE BOX 5
- > REFERENCE BOX 7

The Revelation programs will convert all numbers to box numbers (541 will be turned into 145) and then it will give the corresponding Reference Box (the hottest digits in the 1st, 2nd and 3rd positions). For example, when I enter the 40 numbers for New York starting from Saturday March 31 (457 012, 378, etc.) it will give me the output below (all straight numbers have been turned into box numbers). The Leader is the top number: **039** (that is what you are looking for in all the Revelation programs in red in the previous page: the top three digits).

Revelation 5

40 numbers used:

457 012 378 234 139 034 166 166 246 029 388 077 033 678 036
128 368 249 244 129 225 568 059 115 479 345 499 288 269 039
134 235 127 088 228 155 055 469 168 069

0 3 9

1 6 8

2 2 5

3 4 4

4 5 6

Take 039 and enter it into the **Plus 2/Minus 2** program.

Reference Box Programs

- > REVELATION 605
- > PLUS 1/MINUS 1
- > PLUS 2/MINUS 2**
- > REVELATION 60
- > REVELATION 40
- > REVELATION 20
- > R60 DECODING PROGRAM

Here is the output.

Plus 2/Minus 2

Plus 2/Minus 2 list for 039

003 013 019 029 037 038 049 059 139 389 399 (11)

Result:

310 Hit New York four days later on April 4, 2018.

003 013 019 029 037 038 049 059 139 389 399 (11)

Use this system along with the system I explained in the previous report to identify hot numbers for the next 7 days.

By the way, BOTH **013** and **237** (from the previous report) are on my coding sheet – so what I am seeing now is that I can use MANY systems to identify good numbers to play, and then I can go to my coding sheet (where I list the hot numbers for the current week) to see if any of the numbers from these other systems show up on my list (I now call all other systems **Secondary Systems**). If they do, it means that it is a good number to play for the next 7 days.

I explain my coding system here:

However, this Leader System can be used as a stand-alone system. It's pretty good.
