

# How to Code the Win 4 Game

## EMAIL I JUST GOT

Do you have a coding report for the Pick 4 game?

## MY RESPONSE

You would use the same process used to code the Pick 3 game; use the last 40 numbers starting from Saturday night to get the distribution box. You can use the program in red below to get this distribution.

### Win-4 Programs

- > WIN 4 DAILY HITS
- > WIN 4 LISTS
- > 1-DUE LINE
- > REVELATION 60
- > PLUS 1/MINUS 1-4
- > 16 STRAIGHT NUMBERS-400
- > 16 STRAIGHT NUMBERS-300
- > 16 STRAIGHT NUMBERS
- > REVELATION 10
- > REVELATION 4
- > STRAIGHT GROUP MATCHING-4
- > STRAIGHT MATCHING-DOUBLES
- > GROUP MATCHING SYSTEM-4
- > VISUAL DIGIT DISTRIBUTION-440**
- > VISUAL DIGIT DISTRIBUTION-460
- > VISUAL DIGIT DISTRIBUTION-4
- > DOUBLES STRT LIST 00-99
- > SINGLES-DOUBLES (STRT)

Then you code the numbers that hit in the next 7 days.

I explain how to do this in detail in **The Coding Report.**

The rules are the same for the Win 4 game.

And just so you know, I explain my **7 Day Coding System** in 3 books or reports. The first one can be purchased for just \$2.99 as a Kindle on Amazon.

### **Book-3-The 3 Week Trigger**

You would have to code 40 to 60 weeks to get a good list of Win 4 codes. (This is difficult by the way; coding the Win 4 game will give you a headache). **NOTE:** If you want me to code the Win 4 game for your state, contact me. However, you would have to have taken my **Training** or read **The Coding Report** before you can use this service.

With the Win 4 game you are not looking for the best double. You are looking for the best **triple**. So you would copy your codes and paste them into the **Triple Frequency Finder** program (under Win 4 Programs).

- > WIN 4 PLAYLIST 210
- > WIN 4 DOUBLES PLAYLIST
- > WIN 4 LINEUP-10
- > STRAIGHT LOW HIGH-4
- > STRAIGHT LOW HIGH-410
- > CONSOLIDATION-4
- > STRAIGHT POSITION-4
- > BOX POSITIONAL CONTROL-4
- > WHEELING PROGRAM-4
- > PAIR FREQUENCY FINDER-100
- > TRIPLE FREQUENCY FINDER-4**
- > TRIPLE-FOUR
- > FRONT-PAIR-4
- > BACK-PAIR-4
- > PAIR FREQUENCY FINDER-4
- > 60 DOUBLES STRT LIST 00-99

Get this triple code and put it on top of your Excel sheet (copy the three digits that make up the triple, making sure that digits 01234-56789 are in the Anchor position when you do so).

Enter the distribution in the Anchor on Saturday night (based on the last 40 Win 4 numbers that hit) and see what the triple is for the coming week. *Entering the 40 number digit distribution on the Anchor will turn the formula or code entered into the actual triple to play for the coming week. I explain all this in [The Coding Report](#).*

For example, if the triple is 389, you would be playing these 10 numbers for the next 7 days:

3890 3891 3892 3893 3894 3895 3896 3897 3898 3899

NOTE: You can get the 10 number playlist for any Win 4 triple by entering that triple into the **Triple-Four** program.

- > STRAIGHT LOW HIGH-410
- > CONSOLIDATION-4
- > STRAIGHT POSITION-4
- > BOX POSITIONAL CONTROL-4
- > WHEELING PROGRAM-4
- > PAIR FREQUENCY FINDER-100
- > TRIPLE FREQUENCY FINDER-4
- > **TRIPLE-FOUR**
- > FRONT-PAIR-4
- > BACK-PAIR-4
- > PAIR FREQUENCY FINDER-4

## That is the basic strategy.

However, it looks like you would have to code a YEAR or TWO to get a good enough sample of codes. This means that one needs to code at least 52 weeks to get a good sample to identify the best triple.

Also, you would have to play the top TWO triples to see consistent hits. If you only want to play the top triple (10 numbers), you would then have to track that triple. A good time to play it would be after it has not hit in 2 to 3 weeks

See **Book-3: The 3 Week Trigger**; the same 3-week tracking system I explain in that book works great in the Win 4 game.
