You can cut down on your list by just playing the 22 doubles and 2 double-doubles and the 2 triples. However, I recommend you play ALL of them if you are playing your numbers at 5dimes.com (email me to get my **FREE 5dimes report** if you don't have it at: [aanewyork4000@gmail.com](mailto:aanewyork4000@gmail.com)). **Most of the hits will come from the 14 singles and the 22 doubles.**

Here is the betting strategy included in the program instructions:

**BETTING STRATEGY:** Only play these 40 numbers from Monday to Saturday. Do not play them on Sunday. The 40 numbers can be played for **0.25 cents box** at 5dimes.com. It will cost **\$120** per week (\$10 per drawing X 12 drawings per week). A single hit pays **\$93.75** at 5dimes.com and a double hit pays **\$187.50**. **Most of the hits will come from the singles and doubles.** A double-double hit (1122) pays **\$375** and a triple hit (3334) pays **\$562.50.**

That's right; 5dimes will pay you **\$375** on a double-double hit and **\$562.50** on a triple hit....and you only had to play the numbers for 0.25 cents box! (Email me to get my FREE 5dimes report if you don't have it!).

I want to add this; this program is based on codes that hit **76** times during the last **57** weeks in South Carolina; so these numbers tend to hit once or TWICE per week. Yes, there will be weeks with no hits, **but these losing weeks will usually be followed by one or two hits the following week. You can confirm this by back testing the program (make sure you don't use the number for Sunday when entering the 40 numbers).**
