

How to Make **\$876** in the Next 4 Weeks Playing Win 4 in **South Carolina**

It is now Tuesday November 27, 2018 and I just updated the Win 4 program for South Carolina (the updated program will be up in a few days). This program will give you a total of 31 numbers – but you only really have to play 13 of them; the **Super 8** numbers (based on the 8 hottest codes in SC) and 5 doubles. These two sets of numbers hit a total of 60 times in the last 60 weeks in South Carolina; so they are averaging about one hit per week. Below are the instructions that will come with the updated program.

This program is only good for South Carolina and it should only be used on SATURDAY NIGHT. Enter the last 40 numbers that hit starting from the last number that hit on Saturday night. This program will give you 31 numbers to play for the coming week (**Monday** to Saturday). I do NOT recommend you play these numbers on Sunday; only play them Monday to Saturday. The 31 numbers are made up of the **Super 8** (the 8 hottest codes in SC), 18 singles and 5 doubles.

These 31 numbers are based on the 31 hottest codes in South Carolina. Eight of these codes (I call these the Super 8) hit 40 times in the last 60 weeks. The 18 singles hit 72 times and the 5 doubles hit 20 times. In total these codes hit 132 times in the last 60 weeks in SC.

The best numbers to play are the **Super 8** numbers (all singles) and the 5 doubles. These two sets of numbers (13 in total) hit 60 times (40 + 20) in the last 60 weeks; so they are averaging about one hit per week.

The most important part of the instruction is the Betting Strategy.

Notice that I am being conservative; I am only going to assume TWO hits from the 8 singles in a 4 WEEK period (month) and I am going to assume just ONE double hit in a 4 WEEK period; just 3 hits will be required for one to PROFIT **\$876** in the next 4 weeks....assuming the 13 numbers are played \$1 box at 5dimes.com. The numbers will be played for 12 drawings per week (Monday to Saturday) X 4 Weeks. Do NOT play the numbers on Sunday.

BETTING STRATEGY: I recommend starting out by only playing the **Super 8** numbers and the 5 doubles for \$1 box at 5dimes.com. 13 numbers X 12 drawings is **\$156** spent per week, which is \$624 spent per month. Assuming 2 single hits per month ($\$375 \times 2 = \750) and ONE double hit per month (\$750), the monthly profit will be **\$876** ($\$1500 - \624).

If you currently have access to my programs and you have the budget to play at this level (it will require spending \$156 per week for 4 consecutive weeks; \$624 total), you will have an EXCELLENT chance of being ahead about **\$876** 4 weeks from now because the odds are great that you will get AT LEAST 2 single hits (they pay \$375 at 5dimes.com) and that you will get at least ONE double hit (pays \$750).
