

**The Best States to Play the Lucky Numbers are**

**North Carolina**

**New Jersey**

**California**

I said previously that this system works best in Virginia. Actually, that is NOT the case. I changed my mind after looking at the Hit Report more carefully.

If you look at the Hit Report for the last 10 weeks and ONLY look at the first 7 numbers (the first 7 numbers are the best numbers) you will see that **NORTH CAROLINA** got the most hits; it also got the most DOUBLES. (I will show all the hits and explain this in more detail in the next **Lucky 7 Kindle** (Book-2).

This is followed by **New Jersey** (only look at the first 7 numbers).

The third best state is **California**.

# North Carolina

This system works best in **North Carolina**.

Below are the numbers for this week (March 17-23).

Notice that one of the numbers is a DOUBLE...

**450 458 452 457 455 453 451**...and this double happens to be

one of the first 5 numbers: **450 458 452 457 455** -- **453 451**

(the first 5 of the 7 numbers are the best). **This is Important:**

**If you only play the first 5 of the 7 numbers in NC you will do VERY WELL. You will also hit DOUBLES from time to time.**

However, I am only referring to the first set of 7 numbers  
(724 721....726). The first number hit (724) on Sunday (March
